## PROJECTS

### ECOMMERCE WEBSITE

Developed "LeatherTech Oasis," an e-commerce website for high-quality leather products, using ReactJS and Tailwind CSS for a responsive and dynamic user interface. The backend was built with Express.js and MongoDB, ensuring robust and scalable performance.It includes following features

- Secure User Authentication:** Implemented JWT for token-based user authentication and authorization.
- Dynamic Product Catalog:** Created a searchable product catalog with detailed descriptions, pricing, and high-quality images.
- Shopping Cart System:** Developed an intuitive shopping cart allowing users to add, remove, and manage products.
- Order Management:** Integrated a complete order processing system, including order tracking and payment integration.
- Responsive Design:** Ensured optimal performance across various devices and screen sizes.
